

"Psychosomatic Energetics: A revolutionary new concept for the precise detection of energy blocks and the effective treatment of emotional issues"

written by Dr. Reimar Banis, M.D., N.D.

Psychosomatic Energetics (PSE) represents a new approach to healing and illness. According to its inventor, Dr. Reimar Banis, M.D., N.D., many chronic conditions are caused by energy blocks. Most important are inner blocks caused by hidden emotional conflicts. These conflicts block the energy flow in the body. A blocked energy flow is often the main cause of disturbed metabolism in a segment or region of the body, which leads to many illnesses and complaints. Unlike psychotherapy, Dr. Banis claims that it is often not enough to bring these issues into consciousness. They need to be resolved in the body's subtle energy field. In many cases, psychotherapy ends up as unnecessary because the psyche's self-healing powers enable the person to harmonize and heal once the blocks have been treated.

Emotional conflicts interfere with the proper functioning of our autonomic nervous system. They obstruct energy flow, leading to an energy deficiency in the body's cells and ultimately all kinds of symptoms and complaints. Energy blocks can also originate from outside the body, mostly due to geopathic stress (the effects of the earth's magnetic field). PSE also addresses the hidden metabolic problems such as intoxication, foci and dysbiosis. To that end, a special approach has been developed - based on the life-long experience of such outstanding physicians as Dr. Helmut Schimmel and Dr. Reinhard Voll. In PSE, all this knowledge is integrated in a highly efficient diagnostic approach using a special Zoological Test Kit.

With the new homeopathic compound remedies, emotional conflicts can be energetically deleted, usually permanently. Based on the treatment of well over 1,000 patients (in a 2000-2003 study), these remedies have proven to be the strongest and most effective biological treatment known so far in addressing unconscious mental conflicts. Good results have been achieved - even in severe cases such as chronic pain states.

The emotional homeopathic preparations (Emvitas) improve the action of all other therapies, and they have proven to be so good in many private practices that they have very quickly become indispensable standard medicines. The remedies are FDA approved in the U.S.A. and have NHPD Submission/File Numbers and are available in Canada. There are forty different Rubimed homeopathic remedies that in combination, address all conditions that can be detected with a specially-designed Basic Test Kit. These remedies, manufactured in Switzerland to Swiss quality standards and GMP regulations, are distributed worldwide.

Being made up of different substances at different potentiations, the Rubimed remedies have been designed to address multiple symptoms. The remedies work on the physical level as well as on the emotional, mental and subconscious levels. Therefore, they have to be selected carefully, not just based on the leading (readily observable) symptoms. For this reason, it is often preferable to use the REBA test device which has been specially designed for this purpose.
